STATE FAIR IS NOT ABANDONED

Agricultural Board Decides to Ignore Streetcar Strike.

UNIONS OF STATE INTERESTED

Will Meet in Columbus to Discuss Means of Bringing Labor Dispute to Successful Termination—Local Workers Pledge Support and Prepare to Wage Bitter Commercial and Political Warfare on Those Who Ride Cars.

Columbus, O., Aug. 24.—The state board of agriculture decided to hold the state fair as planned, beginning Sept. 5, whether the streetcar strike is ended by that time or not.

A request that the Columbus chamber of commerce put up a guarantee fund of \$25,000 to assure the payment of expenses and premiums was not complied with.

That there is to be a concerted effort of organized labor throughout the state to help Columbus streetcar men win their strike has developed. Fred Fay, national organizer, and member of the executive board of the carmen's union, now in session at Detroit, received a telegram saying that the executive board endorsed the position of the Columbus streetcar men and that the executive board was considering plans for calling a conference in Columbus of representatives of organized labor throughout the state to carry the strike to a successful termination.

Fay wired the executive board favoring this plan and recommending that in addition to representatives of the Ohio Federation of Labor and the central bodies of the streetcar men's organizations, that the representatives of the steam road organizations also be called into this conference. This meeting will probably be held some time next week in Columbus.

Detective's Character Assailed.

It was given out at the governor's office that no police powers of any kind had ever been conferred by the governor on any detectives employed by the R. J. Coach detective agency of Cleveland and doing strike duty in Columbus. Such a charge was made by the Columbus Federation of Labor when a resolution was passed requesting the governor to revoke any powers granted Coach detectives.

Secretary Long explained that the statutes give the governor no authority to confer police powers on men employed by a detective agency. He may, however, grant police powers to regularly employed watchmen or detectives for steam and electric railroads, but the law limits the number of such men with police powers to one to each five miles of track.

The character of R. J. Coach, chief of the detective agency, is attacked by labor organizations, who allege he is an ex-convict.

Representatives of 33 of the 50 labor organizations of the city held an enthusiastic meeting and pledged the support of every member to the terms of a resolution, adopted by unanimous vote, the actions of persons both in commercial and political life are to be closely watched in the future. This is understood to mean that merchants who ride on cars or permit their clerks to ride will be boycotted by union men and public officials who patronize the Columbus Railway and Light company will be taken care of at the polls by the 8,000 union voters of the city.

Two unsuccessful efforts were made to blow up streetcars on the South Side. Practically no damage was done.

A squad of police went to Dana avenue and West Broad street shortly before midnight on a tip that a dynamiting had been planned there. Nothing came of it.

Miss Detwiller of Mansfield is spending several days in Gambier the guest of Miss Cora Putnam.

EXCELLENT EXHIBIT IS NOW ASSURED

Ohio State Fair Entries Heaviest In Its History

Amusements Galore To Feature Exposition Program

Entries in the premium departments of the Ohio State Fair closed last Saturday. In number and excellence they surpass those of any previous Exposition. Famous stables, herds and flocks of the Union will compete for the liberal premiums offered. Every class is liberally filled. The battle of the breeds will rage from the opening day until the closing day.

The women's, art, farm products and horticultural departments have more entries than ever before. The machinery and merchandise displays are the grandest in the Exposition's history. A complete exhibition is assured in each of its seventeen distinct departments.

Visitors will note the many improvement and adornments that have been added to building and grounds since the close of the last Exposition. Each of the mammoth exhibit buildings has been freshly painted and the interiors tastefully decorated. New walks and shady driveways have been constructed. Unsightly structures have been razed, and in their stead will greet the eye exquisite flowering embellishments. The park grounds are now a veritable scenic paradise, unequalled by any pleasure resort in the state.

No effort has been spared to make the 1910 Exposition a grand success. Novel and instructive exhibits, depicting the progress of the people, will be installed. Every walk of life will be represented in the thousand or more displays. Amusement and entertainment galore will feature the Exposition program.

Stars of the amusement world in feats of skill and daring; Weber's prize band, spirited harness racing and Pain's masterpiece, "Battle in the Clouds," are daily free attractions. The Exposition will be open both day and night. Nothing can now mar its success, and the managers confidently predict that on September 5, 6, 7, 8 and 9 the turnstiles will register the largest attendance that has ever entered the gates of the Ohio State Fair.
